Call for Submissions
Caldwell University Research and Creative Arts Day

April 24th, 2019 11:00 am - 8:30 pm
Location: Caldwell University
Student Center Gym and the Performing Art Center at Mount St. Dominic Academy
120 Bloomfield Ave, Caldwell, NJ 07006

Dear Members of our Caldwell University Community,

We would like to invite our students, staff, faculty and alumni to share your special project, such as your research findings, honors project, nursing project, art creation(s) and/or performance recording(s) during the 3rd annual Caldwell University Research and Creative Arts Day. This is our chance to display the talents of our students and alumni, the dedication of our staff, and the high caliber of our faculty.

Our Keynote Speaker will be an accomplished astronomer, Dr. Anton Koekemoer from the Hubble Space Telescope/Space Telescope Science Institute, who studies the formation of galaxies and black holes in the universe. He will talk about his work and relationship with the St. John’s Bible Project.

On this day, we will bring together the academic achievements of both undergraduate and graduate students. The displays will be evaluated by a panel of judges comprised of evaluators from our esteemed alumni, our valued collaborators, Caldwell University faculty and staff. The judges will select the best in each category. First prizes will be awarded and all participants will be recognized at our Honors Convocation at 7 pm on the same day.

We encourage you to submit a short abstract that explains the relevance of your work by March 1st, 2019. A link to a submission form is provided here: CaldwellResearchFair.com. You will find several sample abstracts under the ‘Sample Abstracts’ tab in case you want to view examples. Your abstract can be submitted using the ‘Call for Proposals’ tab.

If you have any questions or requests, please click on the ‘Questions?’ tab on the website, or send an email to Marlene Alvarez (malvarez1@caldwell.edu), Darryl Aucoin (daucin@caldwell.edu), or Agnes Berki (aberki@caldwell.edu).

Sincerely,
The CRaCAD Team
Agnes T. Berki, M.Sc., Ph.D.
